Education

2021-Present *University of Calgary Undergraduate Software Engineering

*Expected Graduation 2026

2018-2021 St. Francis High School

2015-2018 St. Joseph Junior High

2008-2015 Monsignor Neville Anderson Elementary School

Volunteer Experience

- **Saint Vincent de Paul Food Bank**- following instructions preparing food hampers
- **Inn from the Cold** - prepare lunches, serve dinner and clean up the dining room after dinner
- **TD Tree Day** - plant native trees in our parks (South Glenmore Park and Prince's Island Park)
- **Schulich UAV** - Working on a team of engineers at the University of Calgary to design and create an autonomous drone. I am working on the machine learning team, tasked with creating a neural network for detection and classification of images.

Work Experience

- **Taste of Calgary** - I worked at the Taste of Calgary for three years taking orders, serving food, handling money, and talking to the public in a high paced environment
- **The Brick** - Worked as a merchandiser at The Brick Sunridge in Calgary Alberta from August 2021 to present. The job includes building furniture, prepping deliveries, facilitating customer pickups, and various other warehouse duties.
